DETAILED ACTION

Allowable Subject Matter

1. Claims 1- 20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With respect to independent claim 1, the prior art of record fails to teach or reasonably suggest an x-ray detector with detector elements arranged in a layer:

wherein a shielding of variable shielding effectiveness is disposed in front of the processing circuit.

With respect to independent claim 12, the prior art of record fails to teach or reasonably suggest an x-ray detector with detector elements arranged in a layer comprising:

wherein a shielding, with continuously or discretely varying absorption coefficients for X-rays, is disposed in front of the processing circuit so that it only shields radiation sensitive regions of the processing circuit.

With respect to independent claim 18, the prior art of record fails to teach or reasonably suggest a method comprising:

wherein the x-ray absorption coefficient of the shielding varies in a direction orthogonal to a direction of incident x-rays along the radiation sensitive region, thereby the shielding is not the same in all places in front of the processing circuit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
